Continuity of Operations in Response to COVID-19 (Coronavirus)

"We will take care of our employees the best that we can while providing essential services to the community."

With the United States finding itself in the beginning stages of the COVID-19 (Coronavirus) outbreak, governmental agencies, as well as private industry are all taking steps to stop the transmission by limiting exposure. The MFPD will be no exception in this effort. As much as we are in this profession to help others, we will be implementing certain practices to limit our members from contracting the virus. We are an essential agency and cannot afford to lose percentages of our workforce. Therefore, we will reduce our services in the short term, to ensure our services will be available in the long run. These services are listed below, along with actions to help prevent the spread of any virus. This list is not meant to be all encompassing and may be modified when needed.

Changes in strategy:

- Access to the Police Department will be limited, however the public lobby will remain accessible during normal business hours
- In the event you require non-emergency police service, you may be asked to be contacted via the phone in order to ascertain if an in person response is required.
- Temporarily suspend tours and public speaking events, and fingerprint services
- Vehicle lock outs will be limited to extenuating safety circumstances
- Though greatly appreciated, We will not accept food donations.
- Drug Box drop off will be suspended until further notice (Secure unwanted drugs in your home)

In the event you have an emergency, do not hesitate to call 911 and an officer will respond.

Nothing Follows

The Menomonee Falls Police Department is accredited by the Wisconsin Law Enforcement Accreditation Group
