## Functional Organization Chart

# STRUCTURE OF VILLAGE FUNDS

The accounting records of the Village are organized into funds and account groups, each of which is treated like a separate entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute assets, liabilities, fund equity (reserves), revenues and expenditures/expenses.

## **GOVERNMENTAL FUNDS:**

### **GENERAL FUND**

Contains cost of providing police & fire protection, garbage collection, recycling, parks, street maintenance, community development, planning zoning, licenses and permits, engineering, assessing, tax billing and collections, financial services, clerk/treasurer requirements, elections, payroll and personnel, property and insurance, building and vehicle maintenance, and general administration.

### **SPECIAL REVENUE FUNDS**

Revenues with specific requirements for spending as a result of restricted donations or state/federal grants. Library Operations and Maintenance Fund, and the Solid Waste Collection Fund are included in Special Revenue Funds.

### **DEBT SERVICE FUND**

Annual principal and interest payments on debt not covered by utilities and risk management funds.

### **CAPITAL PROJECTS FUNDS**

Tracks revenues and expenditures related to:  
General capital projects and equipment  
Municipal Facilities and Equipment Fund  
Tax Incremental Districts  
Special Assessment Fund

## **PROPRIETARY FUNDS:**

### **WATER UTILITY**

Contains revenues, expenses and capital purchases relating to water pumping, treatment, supply, billing and administration.

### **SEWER UTILITY**

Contains revenues, expenses and capital purchases relating to sewerage treatment, processing, billing and administration.

### **STORM WATER UTILITY**

Contains revenues, expenses and capital purchases relating to storm water management

### **RISK MANAGEMENT**

Contains revenues and expenses relating to property and liability insurance from CVMIC

## **FIDUCIARY FUNDS:**

Used to record assets held by the Village as an agent for other governmental units as a result of the tax collection process.

## GENERAL FUND BALANCE & WORKING CAPITAL

### **DEFINITIONS:**

<b>Fund Balance</b>	Assets less liabilities equal fund balance or net assets. Fund balances are the accumulated results of the Village's financial activities. An excess of revenues over expenditures increases fund balance and a deficit decreases the fund balance. Note that the fund balance is not the same as cash on hand.
<b>Nonspendable</b>	Includes amounts that cannot be spent because they are either not in spendable form (i.e. convertible into cash) or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid amounts, assets held for sale and long-term receivables.
<b>Restricted</b>	Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions or enabling legislation).
<b>Committed</b>	Amounts that can only be used for specific purposes because of a formal action (resolution or ordinance) by the Village Board. The formal action must occur prior to the end of the year, but the amount of commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village that originally created the commitment.
<b>Assigned</b>	Amounts that are constrained by the government's intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, another body or by an official to whom that authority has been given. With the exception of the General Fund, this is the residual fund balance classification for all governmental fund with positive balances.
<b>Unassigned</b>	This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.
<b>Working Capital</b>	Alternative wording for unassigned fund balance.
<b>Number of Months of Working Capital</b>	The Village Board is committed to maintaining around three months of budgetary expenditures in reserve. The decision, therefore, to use working capital to control the tax rate is weighed against the number of months of working capital remaining as a cushion in case of emergency.

The Governor of the State of Wisconsin imposed a tax levy limit on increases in a community's tax levy. This limit caps the total tax levy excluding TID tax increments. The levy limit is stated as the maximum of 0% or the percentage increase due to new construction, or 2.41%. Debt service is excluded from the calculation.

The Village's total tax levy supports the General Fund, Debt Service, Library, Library Building Maintenance, the Storm Water Utility and Interceptor Sewer.

Property taxes are levied to Village property owners at a calculated rate per \$1,000 of assessed property valuation as of January 1, after taking into consideration the effect of the tax incremental districts and the impact of the assessed to equalized value ratio.

During 2010, the Wisconsin Department of Revenue changed its valuation techniques related to TIDs. Starting in 2010 and forward, the DOR will rely on the assessment values as presented by the Village assessor. Once a TID reaches 10% of total equalized value, the value remains at that level to prevent skewing of values.

## LONG TERM DEBT SUMMARY

The Village of Menomonee Falls borrows funds for various purposes, and for various durations. The factors considered in structuring debt are project cost, useful life and funding source. Emphasis is put on stabilizing the tax rate or the user charge over the life of the bond.

As part of the Capital Budgeting process, management attempts to identify sources of funds with which to pay for projects and equipment. These sources include capital reserves, impact fees, and interceptor sewer reserves. After these funds have been applied, the remaining needs are borrowed in the form of general obligation notes, bond anticipation notes, and utility mortgage revenue bonds. Depending on the purpose of the note or bond, principal and interest are charged to different Village functions: General Fund, Special Assessments, Municipal Facilities, Tax Incremental Districts and the Utilities.

---

### ***Remaining Allowable Debt Capacity***

Under Wisconsin State Statutes, the Village's general obligation debt may not exceed 5% of the equalized value of the taxable property located in the Village. The Village Board has traditionally followed a conservative guideline of not exceeding 60% of the legal debt limit. It is estimated that the Village will average \$2 to \$3 million in borrowing for capital projects each year. This estimate does not include the special needs of TID districts or borrowings for municipal facilities.

## **INTERGOVERNMENTAL REVENUES**

Nearly all of the revenues in this category come from the state. Over half of that funding is transportation and highway aids and the remainder is mostly shared revenues. Estimates are provided from the state for budgeting.

State Transportation Aids are payments from the State of Wisconsin for street and road maintenance programs.

Connecting Highways are marked state trunk highways through the Village. Aids are payments from the State for maintenance of these roadways. Payments are calculated per lane mile.

Shared revenues were initially designed to make a municipality whole for loss of taxes on exempt property. This continues to be true for tax exempt computers; however, general shared revenues are now based on the State's ability to pay and are generally distributed proportionately the same as the prior year.

## **PAYMENT IN LIEU OF TAX - WATER UTILITY**

This revenue is a payment in lieu of real estate taxes. The calculation is prescribed by the Public Service Commission and is based on the assets of the Utility, adjusted for estimated additions and removals of plant, water mains and hydrants. The Village's tax rate, excluding the State and County portion, is used to calculate the tax. Fluctuations in the tax rate, the ratio of assessed to equalized value, and depreciation play a significant role in the amount of payment.

It should be noted that the Water Utility charges the General Fund for Public Fire Protection

## **LICENSES AND PERMITS**

Licenses and permits are issued by the Clerk's office and the Department of Community Development.

The largest source of revenue in this area comes from permits; building, electrical, plumbing, and heating.

## **PUBLIC CHARGES FOR SERVICES**

The majority of revenues in this category are fees established to recover certain administrative expenses for services thought only to benefit certain individuals or developers, rather than all general taxpayers.

The bulk of the revenue in this category is from ambulance services. Ambulance fees are established by the Village Board for services performed by the EMS Department. These are billed and collected via an outside billing service.

## **MISCELLANEOUS REVENUES**

### **Interest Income**

The primary objectives of the Village's investment activities are safety of principal, liquidity, and return on investment. The Village invests its funds in accordance with State Statutes.

The primary investment vehicles used are:

1. State of Wisconsin Local Government Investment Pool (LGIP), which invests primarily in U. S. Government Treasury bills.
2. Time deposit accounts, such as money market accounts.
3. Certificates of deposit with local banks.

Cash is transferred to and from the State Pool as needed and investment earnings are recorded on a monthly basis.

Starting in 2014, the General Fund will charge (investment rate + 1%) interest on advances to other funds. Previous to this, a flat 6% rate was charged.

### **Other Miscellaneous**

The largest revenues in this category are cable TV franchise fees and publication fees.

Publication fees are collected by the Department of Community Development for public notices which are required to be published in the newspaper.

## **FINES AND PENALTIES**

Court penalties and costs are collected by the Police Department as a result of judgment passed in Municipal Court for violations of various Village ordinances and payments received from defendants for court costs.

## **OTHER TAXES**

The two major revenues in this category are hotel/motel taxes and fire insurance taxes.

The Village collects an 8% hotel/motel tax. Per State Statutes, starting in 2017, 70% of this tax is remitted to the Tourism Commission.

Fire insurance taxes increase (decrease) in direct proportion with an increase in assessed value and the tax rate.

### BUDGET NOTES:

The Solid Waste Collection Fund accounts for garbage collection and recycling activities. In order to obtain the most efficient and cost effective means of obtaining solid waste collection services, the Village negotiates with Waste Management on behalf of Village constituents. A fee is placed on the tax bill annually to cover the majority of the expense. Commercial, industrial and residential properties with more than four units contract privately and are not assessed the fee. Any shortfall is covered by a transfer from the General Fund.

The fee to be placed on the 2017 tax bill for 2018 purposes for each residential unit up to four units is as follows:

Base fee	\$90.64
State Generator fee	9.48
Unit fee to be placed upon the tax bill	<u><u>\$100.12</u></u>

### **BUDGET HIGHLIGHTS:**

No significant changes from last year's budget.

## FUND 500 (DEBT SERVICE FUND)

This fund provides for the annual payment of principal and interest for the Village's general long-term debt.

Debt for enterprise funds (i.e. utilities) is recorded separately in each applicable fund.

The Village of Menomonee Falls borrows funds for various purposes, and for various durations. The factors considered in structuring debt are project cost, useful life and funding source. Emphasis is put on stabilizing the tax rate or the user charge over the life of the bond.

### **Bond issue types:**

<b>General obligation bonds and notes</b>	Commonly referred to as "full-faith and credit" bonds because they are based on the full-faith and credit pledge of a governmental unit to pay the debt. Under normal circumstances, the Village uses ten year maturities for general obligation bonds and notes.
<b>Bond anticipation notes (BANS)</b>	Temporary construction bond issues used most often in the case of Tax Incremental District construction. At the end of construction, when final costs are known, BANS are refinanced to long term bonds structured to coincide with the life of the TID district.

### **BUDGET HIGHLIGHTS:**

The Debt Service Fund is the primary record of principal and interest payments made on behalf of all funds except for Utility debt. Because the utilities are proprietary funds, they carry their own debt.

Principal and interest schedules to maturity are shown on Pages 2.7 through 2.9.

During 2017, the Village issued the following debt:

\$ 1,280,000 Refinance #129 (TID #12)  
\$ 14,935,000 2017 Capital Budget (w/ DPW Facility)

### General Information:

In 1991, the Village substantially reduced liability insurance costs by joining the Cities & Villages Mutual Insurance Company (CVMIC), which was created in 1987 to provide insurance for its members.

The Risk Management Fund includes annual premiums for all liability insurances, a self-insured retention from which lower end claims are paid, and service fees for third party claims administration and consultation.

Consulting services include actuarial calculations for GASB 45. The calculations are required every two years.

The primary revenue for this fund includes transfers from other funds.

Property and bonding insurances are budgeted in the General Fund, Department 160.

Sanitary sewer relining project - annual rehabilitation	\$ 100,000
Pickup Truck	34,000
Silver Spring Lift-Station Improvements	26,000
	<u>\$ 160,000</u>

### **MISSION:**

To provide for effective and efficient collection and conveyance of wastewater from residential, commercial and industrial customers served by the Utility to area treatment plants located in the Milwaukee Metropolitan Sewerage District, Village of Sussex, and the City of Brookfield. Both the Village of Sussex and the City of Brookfield are Fox River Water Pollution Control Centers.

Continuing infiltration and inflow (I/I) reduction efforts such as re-lining older sewers and manhole rehabilitation.

### **INFRASTRUCTURE:**

Over 200 miles of mains  
11 lift stations

## **FUND 730 (SEWER UTILITY)**

**(continued)**

### **SEWAGE TREATMENT FACILITY -- CAPITAL CHARGES:**

Currently, Village wastewater is treated by three different facilities as follows:

1. Milwaukee Metropolitan Sewage District (MMSD) services the eastern portion of the Village which is in the Menomonee River Watershed.
2. Brookfield Fox River Water Pollution Control Center plant services some southern areas of the Village which lie in the Fox River Watershed.
3. Sussex Fox River Water Pollution Control Center plant services some southern and western areas of the Village which lie in the Fox River Watershed.

Capital charges are passed on to the Village from treatment facilities outside the Village boundaries for construction and maintenance of facilities and additions to increase the capacity (size) of their facility.

Village of Menomonee Falls also purchases flow capacity for the interceptor sewers owned by the Villages of Sussex and Lannon, in addition to the City of Brookfield.

### **SEWAGE TREATMENT -- USER CHARGES:**

User Charges passed on to the Village from treatment facilities outside the Village boundaries for processing and treating the sewage sent to each facility mentioned above.

### **ITEMS OF NOTE:**

Salaries are allocated from the General Fund for various administrative functions, such as finance, tax collection, engineering, communications services, clerk services and general administration.

A portion of the Water Utility Superintendent is charged here for operational oversight.

Charges for operational activities by public works employees are recorded in the utility via wage/benefit transfers from the General Fund.

Depreciation on infrastructure is based upon audited cost records.

### **RESPONSIBILITIES:**

- Operation of over 150 miles of storm sewer mains
- To maintain and repair all storm sewers and catch basins
- To clear storm sewer backups and cut roots in storm sewers
- To jet-clean storm sewer lines and vacuum clean catch basins
- To locate and adjust catch basins to proper grade before road construction
- To televise storm sewers to locate defects in underground storm sewer mains
- To locate storm sewers for Diggers Hotline and contractors
- To sweep urban streets clean of debris in areas where storm sewer systems are available
- To open drainage channels and roadside ditches
- Monthly reporting of salt applied to Village streets, alleys and public parking lots
- Monitor compliance with the Village's erosion control policies

## **Chapter 7**

### **BUDGET TERMINOLOGY**

## TERMINOLOGY

Accrual Basis	The basis of accounting under which transactions are recognized when they occur, regardless of the timing of related cash flows.
Adopted Budget	The budget amounts as originally approved by the Village Board.
Amended Budget	The adopted budget plus any changes authorized by the Village Board.
Appropriation	The legal authorization to incur financial obligations for goods and services
Assessed Value	A value set upon real estate and certain personal property by the municipal assessor as a basis for levying property taxes.
Assets	Resources owned or held by a municipality which have monetary value.
Balance Sheet	The basic financial statement which discloses what a government owns (assets), what it owes (liabilities), and its equity (net worth) at a specific point in time
Bond	A written promise to pay (debt) a specific sum of money (principal) at a specified future date (maturity dates), along with periodic interest.
Bond Anticipation Notes	Short-term interest-bearing notes issued by a municipality in anticipation of longer term bonds. Typically issued for construction purposes. The notes are retired from proceeds of the long-term bonds.
Budget	A municipality's plan of financial operations for a given period, including proposed expenditures and a proposed means of financing them.
Budgetary level of control	The level of accounts within the budget for which expenditures may not legally exceed appropriations. The Village's control level is at the fund and function level.
CAFR	Comprehensive Annual Financial Report
Callable Bond	Permits the issuer to pay the obligation before the state maturity date by giving notice of redemption in a manner specified in the bond document.
Capital Outlay	The cost of acquisition of large equipment and/or long-term construction projects
Capital Project	The largely one-time cost for construction, improvement, replacement or renovation of land, structures and equipment
CDA	Community Development Authority
CVMIC	Cities and Villages Mutual Insurance Company
Debt Service	Payment of principal and interest on outstanding debt
Debt Service Fund	A functional accounting element used to record all debt payments except for those accounted for in the Utilities.
Debt Limit	The maximum amount of debt which is legally permitted. Section 67.03(1) of State of Wisconsin Statutes provides that the amount of general obligation indebtedness of a municipality shall not exceed 5% of equalized valuation of the taxable property in the municipality. The Village follows a more conservative internal limit which equates to 60% of the maximum allowed by State Statute.
Depreciation	A portion of the cost of a fixed asset which is charged as an expense during a particular period. Depreciation expense is intended to match the useful life of an asset to its value to operations. Depreciation is recorded in the utilities. Fixed assets and their related depreciation is recorded for governmental funds only at the government-wide level of the financial statements.
Encumbrances	Commitments related to unperformed contracts for goods and services. A purchase order is the most common form of encumbrance.
Enterprise Funds	Used to account for operations that are financed and operated in a manner similar to a private business enterprise. The Village operates the Water, Sewer and Storm Water utilities as Enterprise Funds so that the costs of providing goods and services to the general public on a continuing basis are recovered primarily through user charges. The Storm Water Utility is funded primarily through property taxes.
Equalized Value	A full value determination set upon real estate and personal property by the Wisconsin Department of Revenue. Used as a basis for apportionment of tax levies and allocation of state aids.
Expenditures	Decreases in the financial resources of governmental funds.
Expenses	Decreases in the financial resources of enterprise funds (utilities).
Fiscal Period	Any period at the end of which the municipality determines its financial position and the results of operations. The Village's fiscal period is a calendar year, January 1 to December 31.
Fixed Assets	Assets of a long-term nature such as land, buildings and equipment.

## TERMINOLOGY

Function	A reporting unit within a Fund. The function represents the Village's budgetary level of control. An example of a function is Public Safety within the General Fund. Appropriations and amendments for a function require approval by the Village Board.
Fund	A fiscal and accounting entity with a self-balancing set of accounts. Examples are the General Operating and Capital Projects Funds
Fund Balance	The fund equity of a governmental fund derived from the excess of assets and resources over liabilities.
GAAP	Generally Accepted Accounting Principles: Standards for financial accounting and reporting
General Fund	The fund used to account for all financial transactions except for those required to be recorded in another fund.
General Obligation Debt	Debt issues, the payment of which is backed by the full faith and credit of the issuing municipality. This type of debt counts against the Village's debt limit.
Infrastructure Assets	Roads, streets, bridges, curb and gutter, sidewalks, drainage systems, and lighting systems installed for the common good of the public.
Levy	(Verb) To impose taxes, special assessments, or service charges for the support of municipal activities. (Noun) The total amount of taxes, special assessments, or service charges imposed.
Liabilities	Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date.
Modified Accrual Basis	The accrual basis of accounting adapted to the government fund type spending measurement focus. Revenues are recognized when they become both "measurable and available" to finance expenditures of the current period. Expenditures are recognized when the goods and services are performed or delivered.
Pay-As-You-Go	A term used to describe the financial policy of a municipality which finances all of its capital outlay from current revenues rather than by issuing debt.
PSC	Public Service Commission: A state utility regulating body, through which accounting and reporting requirements are imposed and rate increases for the Water Utility are approved.
Refunding Bonds	Debt issued to retire (pay-off) bonds already outstanding.
Reserve	An account used to earmark a portion of fund equity as segregated for a specific use.
Revenue Bonds	Bonds whose principal and interest are payable exclusively from earnings of the Enterprise Fund. In addition to a pledge of revenues, such bonds sometimes contain a mortgage on the Enterprise Fund's property (Mortgage Revenue Bonds).
Revenues	Financial resources of governmental and enterprise funds used for operations.
Risk Management Fund	A fund established to record the Village's property insurance payments and self-insurance reserve balance.
Sewer Utility	An enterprise fund established in 1990 to record all transactions relating to providing sanitary sewerage treatment, transmission, operations, maintenance and billing to Village sewer customers.
Shared revenue	Revenues levied by one government but shared on a predetermined basis, often in proportion to the amount collected at the local level.
Special Assessment	A compulsory levy made against certain properties to defray part of all of the cost of an improvement or service deemed to primarily benefit specific properties
Special Assessment Bonds	Bonds payable from the proceeds of special assessments. The special assessments must be levied before borrowing for these bonds can take place, which means that the property owner is billed before the construction has started.
Special Revenue Fund	A fund used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or capital projects). Revenues are typically restricted for special purposes.
Storm Water Utility	An Enterprise Fund containing all financial transaction dedicated to storm water management. The Storm Water Utility is funded primarily by property taxes.
Tax Levy	The total amount to be raised by general property taxes for the purposes stated in the budget. Property taxes are levied in the current year for subsequent year appropriations. For example, taxes levied in December 2010 would be used in 2011. In this example, taxes are based upon the assessed valuation as of January 1, 2010.

## TERMINOLOGY

Tax Rate	The amount of tax stated in terms of a unit of the tax base (dollars per 1,000 of assessed valuation). Due to changes in the total assessed valuation of the Village, the percentages in the tax levy and the tax rate will not be the same.
Taxes	Compulsory charges levied by a government for the purpose of financing services performed for the common benefit.
TID	Tax Incremental Financing District: A contiguous geographic area within the Village defined and created by resolution of the local legislative body, consisting solely of whole unit of property as assessed for general property tax purposes.
Tax Increment	The tax value on the equalized valuation in excess of the base amount established the year the TID district was created.
Tourism Commission	On April 4, 2016 the Village Board approved an ordinance creating a new Tourism Commission to oversee spending of the Hotel-Motel tax collected.
Water Utility	An enterprise fund containing all transactions relating to providing water pumping, transmission, treatment, operations, maintenance and billing to Village water customers.
Working Capital	Another term for the unreserved fund balance of the General Fund. The Village attempts to maintain a working capital balance equal to three months of general operating expenditures.
